Please see page 2 for additional details regarding each award.

Wally Noerenberg Award (WNA)

The WNA is the highest award given by the Alaska Chapter of the American Fisheries Society (AFS). It is bestowed as a special honor to an individual for great and outstanding contributions to Alaska fisheries. Contributions by nominees may include: scientific research; technological development; species and habitat management; innovations in harvesting, processing, or marketing; academics and fishery education; or involvement in national and international affairs affecting Alaska fisheries. Nominees must be, or have been, Alaska residents for all or the majority of their career. Only individuals, not organizations, are eligible for the award.

The WNA Committee, comprised of three past-Presidents of the Alaska Chapter, will review all WNA nominations and submit their recommendation to the Executive Committee, which will make the final determination whether or not the award is bestowed in a given year. Please note that supporting documents are requested but NOT required at the time of nomination. The WNA Committee may contact nominators to provide additional supporting materials if the original nomination packet does not provide sufficient information to determine the nominee's qualifications for the award.

Meritorious Service Award (MSA)

Nominations for the MSA can be based on an outstanding contribution in any area of Alaska fisheries, including research, management, education, planning, industry, and policy development. Nominations do not have to come from AFS members, nor do nominees need to be active members. The contribution or accomplishment of the candidate must be recent and not the result of many years of effort; recognition of career-long contributions is more appropriate for the Wally Noerenberg Award. The Awards Committee will select winners based on strength of the nomination and the accomplishment.

Chapter Service Award (CSA)

The CSA was established to award outstanding service to the Alaska Chapter of AFS. These candidates should have been involved in some or all of the following activities: active participation in standing or ad-hoc committees; made important contributions to advance the current objectives, long-term goals or stature of the Chapter and fisheries professionals; contributed a significant amount of time to Chapter activities; improved public awareness of the Alaska Chapter and Chapter activities; encouraged development of students as fisheries professionals through recruitment and involvement as Chapter members; and recruited fisheries professionals as Chapter members.

Almost Darwin Award (ADA)

The ADA recognizes the most humorous and outrageous fisheries faux pas of any fisheries professional. The nominees must have committed the faux pas within the last calendar year. Please include a photo or video of proof along with the story.
